

Test Document

For testing reference styles of journals in environmental
microbiology and microbial ecology

Journal: *FEMS Microbiology Ecology*

Some sample text

This is how an article reference looks like (Angel *et al.*, 2012b) and another article from the same year and first author (Angel *et al.*, 2012a). An article with many authors (Boetius *et al.*, 2000). An article with exactly 7 authors (Ofițeru *et al.*, 2010). Article with only 2 authors (Penning & Conrad, 2007). Same authors a year earlier to test the order of appearance in the references (Penning & Conrad, 2006). An article cited only by year (2012). Citing two references at once (Oremland & Culbertson, 1992; Heckman *et al.*, 2001). A book chapter (Belnap & Eldridge, 2003). And an entire book (Fenchel *et al.*, 1998).
